LU-2818ESAL-7

Semi-dry Direct-drive, High-speed, 1-needle, Unison-feed, Lockstitch Machine with Vertical-axis 2.7 Fold-Capacity Hook with automatic thread trimmer (long-pitch type)

Maximum sewing speed is increased

1-needle, unison-feed, lockstitch machine with vertical-axis large hook (long-pitch type)

This sewing machine is best-suited to the sewing of multi-layered materials and rigid materials for car seats, air bags and furniture.

LU-2810ESAL-7

Maximum sewing speed is increased

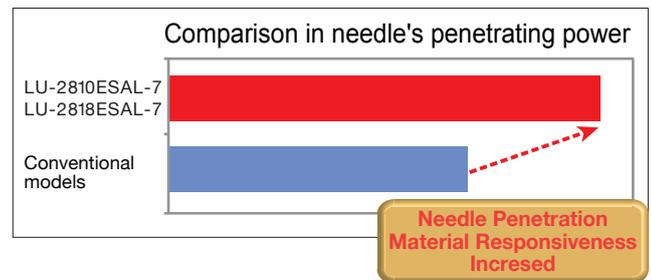

Increased maximum sewing speed of 3,800 sti/min* (LU-2810ESAL-7, 2.0 fold-capacity hook) and 3,500 sti/min* (LU-2818ESAL-7, 2.7-fold-capacity hook) is achieved.

These models of sewing machines demonstrate increased productivity particularly when sewing long materials.

(* The maximum sewing speed varies depending on sewing conditions.)

Responsiveness to materials is improved

- Thick thread of count 0 which is best suited to the sewing of decorative stitches on furniture is applicable to these models of sewing machines.
- These models of sewing machines have adopted a 800-W DD (direct-drive) motor which uses a new control box to increase the torque, thereby providing the needle with an increased penetration into materials.

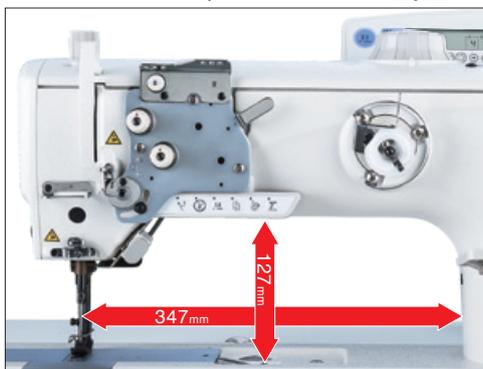

Environmental friendliness is enhanced

In comparison with the conventional models, these new models of sewing machines have been newly designed to achieve reduced noise and vibration.

Functions for improving seam quality and workability.

High and long arm has been adopted.

The long distance from the machine arm to the needle contributes to improved workability.

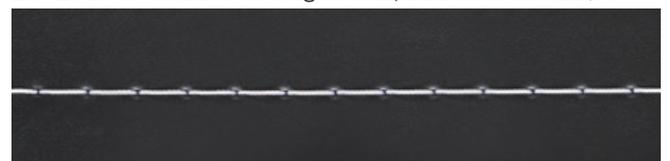

Long-pitch

Long pitch sewing is suitable for decoration sewing of furniture etc. The maximum stitch length is 12mm at the pitch dial.
